

## BABBAT – BETTER ADULT TRAINING

### ABOUT THE PROJECT

<http://babbat.riseba>.

BABBAT is an initiative to develop skills and good practices for educators to motivate low-skilled adults for stronger involvement in lifelong learning. In this way, they will improve their job opportunities. The project is based on the fact that EU Member States are in great need of strengthening their capacity at all levels to ensure greater economic competitiveness and higher GDP. One of the best ways is to increase the number of people who improve their skills through education.

### WHAT WE HAVE ACHIEVED:

During this period the team worked on the IO1 Adult 2 Adults an online textbook that included good practices and motivations for adult training with the following content:

### MOTIVATIONS

The Consortium Created Motivation Documents with best examples on lifelong learning in the participant countries.

### FOCUS GROUP

Partners created a list of 15 people from each participant country dedicated to the project.

### BEST EXAMPLES AND HERO STORIES

Each partner took an interview from one person that shared a story of success and effort towards learning and benefits from engaging in such initiatives and also produced a best example story in English and native languages. Check out in the links below:
